[Sigur Rós-Kveikur \[Live at Jimmy Fallon\]](#)

Trying to sing along to this when you can't sing worth a crap is fun. The weird part is I can sing high notes better then I can sing any other way, sometimes, but that doesn't mean much. I think it was because of how much I used to listen to Sigur Ros back in the day. When I first listened to Sigur Ros, I could not hit the notes at all. My voice refused to go that high. But now I can do that much better then I used to, and I have a harder time doing other things.....

I actually think not understanding the lyrics makes it easier on me, because I don't have to sing along to the lyrics, and I just make

sounds. Not that I don't just do that to everything I listen to, but yeah....

Still, I suck no matter what ☐

I mean, we can actually create a mathematical definition for evolution in terms of the evolutionary algorithm and then write code to deal with abstract instances of evolution, which basically equates to mathematical proof that evolution works. All that remains is to show that biological systems replicate in such a way as to satisfy the minimal criteria required for evolution to apply to them, something which has already been adequately shown time and again. At this point, we've pretty much proven that not only can evolution happen, it pretty much must happen since it's basically impossible to prevent it from happening.

[Ólafur Arnalds-Old Skin ft. Arnór Dan](#)

Neat. I need to listen to more Olafur Arnalds, but the fact he has the singer of Agent Fresco is nice. Olafur Arnalds is more popular then Agent Fresco, and this may help give Agent Fresco the attention I believe they deserve. Also, I guess Vevo itself may help get them both more popular, as well. We need more of the great Icelandic bands getting some recognition.
