Citizens are drafted into government positions, which they must fulfill from behind a mask.

Anime Oligarchy

Partially inspired by the Third Odyssey mod for EU4, this nation is essentially a Byzantine successor state in South America that has fused together Ancient Greek Religion with Greek Orthodox Christianity. It mixes the aesthetic of Byzantium and Ancient Greece, with very open and liberal social values but with an Imperial Monarchy. NS stats are referenced but are not strictly followed to a T.

You're right. We're a corporate state that's highly stratified in a quasi-fascist fashion via corporate statism.
