Communism

Tired of having to say this: The Kingdom of Voidstania is not a kingdom. It is a communist dictatorship with a weak democratic senate under the guise of a monarchy. Normal country stuff.

Also, NS stats and policies are not canon (Because I have a tendency to click the wrong options and give myself dumb policies)

An old funny moustache man armed with a shotgun

On the edges of an empire powerful engineered bloodlines duel for rights to colonise further amongst the stars whilst attempting to prevent their distant previous titles and worlds from being swallowed into the central Imperium.

Currently massive WIP, all current factbooks are from previous canon unless stated otherwise/when I bother to better organise them.
