What album is that? I went through all of their albums but I don't recognize those names on the top of my head.

Hmm, not bad. The dude sounds awesome.

For some reason it made me want to listen to Stolen Babies. I guess it might be because some of their music has a similar vibe (Key word being some because they vary a fair amount in their uniqueness)

Really, overall they aren't really the same at all. But it still got me in the mood to listen to Stolen Babies.

[Stolen Babies-Prankster](#)

Honestly, even though I was on the fence about these guys at first, their newest album is probably a favorite of mine. And the singer is one of my favorite female vocalists.

That's not unusual, though. A lot of stuff I was on the fence about at first end up becoming some of my favorite bands and albums ever. Usually because even though I'm on the fence something keeps me interested, like with these guys.
