Hocico - *Final Resource*

CVT Temp wrote:
I mean, we can actually create a mathematical definition for evolution in terms of the evolutionary algorithm and then write code to deal with abstract instances of evolution, which basically equates to mathematical proof that evolution works. All that remains is to show that biological systems replicate in such a way as to satisfy the minimal criteria required for evolution to apply to them, something which has already been adequately shown time and again. At this point, we've pretty much proven that not only can evolution happen, it pretty much must happen since it's basically impossible to prevent it from happening.

[Hammock-Ten Thousand Years Won't Save Your Life](#)

Started listening to one of their full albums on YouTube for a brief moment for the hell of it (it was like, an hour and 50 minutes long), and this song reminded me why I need to start listening to more Hammock....I've really quite enjoyed what I've heard by them, and I actually think this particular song with it's singing adds to this song. I have to continue going through Grails and Mogwai first, then probably Maybeshewill and then them....So much music to go through.

Vaguely a pessimist, certainly an absurdist, unironically an antinatalist.
