i've had people assume that i'm an anprim because of this nation before.

it's unfortunately a necessary thing a lot of the time.

People have legit thought I am an AnPrim Monarchist who believes duels should be legalized.

As cool as it might sound to have a buncha dudes in leather coats running around shooting each other over beer like it's 1887, it wouldn't be pretty. As for the other stuff, I am not going to touch on that because this isn't NSG

Funny thing is that if the Kiu ended up in an anprim scenario where they were surrounded by high-tech nations they'd just sort of nick the other nations' stuff and go Mad Max on them, probably. So yeah, accurate.

I legit wouldn't be surprised if some people here think I'm a supporter of absolute monarchies because of Aikoland and the whole aesthetic it gives off. (Of course, Aikoland is literally a modern-day constitutional monarchy, I only use the whole 18th century aesthetic because I'm a fan of it, even though I know it could definitely cause confusion for people who don't read factbooks)

Nations with seem to think that battles are only won by having more people and equipment than the enemy or just by having better tech than their enemies.

I've probably made a couple mistakes but I try to do logistics and other things.

Description: I'm an MT Sweden under a fictional far-right ideology known as Holmism.

Basically Modern Sweden + "Folk, I gevär" + Lev Gumilov + Rampant Factionalism + Political Tension + Swedish Neo-Nazism + Sprinkles of Wacky.

nations with 47 million military factbooks and a lovingly detailed government (usually a dictatorship, an empire, or both) and not a single word on the culture or times that shaped how things are, nor how the government influences the people and the culture in turn

...i realize i've failed to do this too but it's something i *want* to do; i'm just incredibly fucking lazy

I've never realized caliphates were generic on NS. I rarely see Islamic nations in general other than my own, which is very much not a caliphate.

Republic of Dayganistan

A secular, Tajik dominated state in Central Asia which has experienced 40 years of democratic backsliding. NS stats are NOT used.

I have two states:

0: I spent hours on F7 or other threads without any progress, other than little AN games...

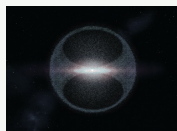

1: I churned out A LOT of lore, like 4000 words per day.

State 0 is more often me.

Or modern Saudi Arabia. Buy billions of dollars of topline NATO gear with your oil money before driving your shiny new Abrams tanks unsupported into open fields so that Houthis can take potshots with 70s ATGMs.

Wanting to write about culture and more about Gandoor in detail is specifically *why* I use an off-site wiki as opposed to the NS factbooks. That way I can write about whatever I want, I don't have to deal with factbook length limitations, I can use formatting I'm more familiar with, and it's just generally easier to navigate around vs NS factbooks.
