In 2009, Steve Murdoch, an American opportunistic miner found a place called Sengalia on the Niger-Chad border where there were more than 10 dozen Uranium, Gold and Petroleum mines.

He came back to the USA, and sold everything he had to buy a huge cache of arms. He then supported a local dictator warlord in that region. In return, he demanded that Sengalia be given to him to rule as a protectorate of the USA. The dictator agreed.

Sengalia area=650 sq km

Murdoch then established a mining conglomerate and started large scale mining activities there. The US government approved for his new nation in return for a fix tax.
