What AN's banner tells me? They apparently like to have large metaphysical experiments, similar to those in CERN, or more fancy stuff, like wormhole research.

What AN's banner tells me? Either they have divisions of turtle soldiers, which seems like a very silly idea, or they use them as landmines, which is even more stupid, and cruel. (Or perhaps they are just merrers with those helmets with "Tito" written on them)

The Karevkan Soviet Union is an alternate history Russia whose history is mostly the same (although under a different name) until the Karevkan Revolution in 1917. More progressive in its policies than the IRL Soviet Union it has a market socialist economy and more civil rights and freedoms.

What AN's banner tells me? They probably admire Napoleon as an important figure of a sort. (Although they seem to be ruled by a fictional dynasty, who's ruler looks suspiciously similar to Tsar Nikolai II).

They're Massive Kaiserboos (not that I'm judging as Byzantiboo)

Partially inspired by the Third Odyssey mod for EU4, this nation is essentially a Byzantine successor state in South America that has fused together Ancient Greek Religion with Greek Orthodox Christianity. It mixes the aesthetic of Byzantium and Ancient Greece, with very open and liberal social values but with an Imperial Monarchy. NS stats are referenced but are not strictly followed to a T.
