8/10

The island of the Galapagos and the main power of South America controlling the West of South America. Militaristic and authoritarian with a troubled past and an uncertain future with stability at an all time low due to a lost war and unpopular occupiers.

9/10, They take "greasing the wheels of industry with the blood of the worker" to its literal extreme.

My travels take me many places, from the scorching sands to the cold, dark vacuum of space. But I always return to my friends and family at The Pub.

8/10. It looks like a mash-up of the Confederate flag and a generic space fascist flag.

This nation is not affiliated with The New Order: Last Days of Europe or its incarnation of Burgundy.

It looks like it's gonna get inherited by Spain and then spend the next 300 years doing nothing but collecting money from tributaries (and maybe fighting a Shogun or two). In other words: a grave threat to Ulm.
