Okay. Will do.

And....I don't know why I do that. I do it a lot too. It's probably just some weird reading it wrong. Maybe it's some strange illusion that makes no sense, or maybe you just read it wrong once and continue to read it wrong. I dunno. Not readings things properly can be strange sometimes.

Also, you might also like [this](#) and [this](#) as well. Though, knowing me and my memory, I've probably sent you both before and forgot I did. But anyway.

I sure as hell know about having too many Spotify playlists. I just counted and I have 192. Some are like a collection of 'Post-Rock' songs I like, a bunch of songs I like, and so on. About 170 or less of them are probably actual bands, because I got a lot of weird playlists. One titled "Nerdcare", and another "One Song To Rule Them All" for when I feel like listening to one song. And probably a good 100 or more of those playlists I still need to go through to find everything I actually like from the band, and some I just added because I was suggested the bands and have never actually really listened to any songs yet. Maybe we should add each other on Spotify, if you want.

Spin off project for maudlin of the Well, right?

I like maudlin but I never got 'round to Kayo, my hard drive is nearly full unfortunately.

Reach Out Into the Truth, Shoji Meguro.

only good track from the persona 4 OST unfortunately.

we, unlike the bourgeoisie, have nothing to lose and therefore our expression will be the only honest one, our words will be the only challenging ones and our art will be the one revolutionary expression. We need new noise and new voices and new canvases to become something more than the last poets of a useless generation.
