Someday, gods willing, I will play this song.

Oh lawdy, that outfit he has is classy. I'm envious.

[Cradle of Filth - Coffin Fodder](#)

I have to listen to Coffin Fodder now that he mentioned it.

I mean, we can actually create a mathematical definition for evolution in terms of the evolutionary algorithm and then write code to deal with abstract instances of evolution, which basically equates to mathematical proof that evolution works. All that remains is to show that biological systems replicate in such a way as to satisfy the minimal criteria required for evolution to apply to them, something which has already been adequately shown time and again. At this point, we've pretty much proven that not only can evolution happen, it pretty much must happen since it's basically impossible to prevent it from happening.

I love having actual faster Internet.....and that the company actually made the Internet faster like they said they would this summer. Not often a company actually does what they say they will when they say they will. Had enough experience with that.
