What. Rapture isn't a monarchy, it's a Technocratic Dictatorship.

Rapture City

- In the underwater city, two roles have emerged from the City's ongoing civil war: the **City Monitors** who defend the peace and the **Red Caps** who fight against unjust systems. The city's infrastructure is crumbling under its own weight and kinship is snuffed by the paranoia of totalitarianism. Yet the people would be in for a surprise as their virtual overlord have died many years ago as the oppression continues under his name...
- Not an 1-1 exact replica of **Bioshock** lore and **Rapture City**. Only the city's atmosphere and setting is maintained.

Rapture Republic: They successfully averted the civil war and breakdown of society they were the victim of in the Bioshock series and seem to be competent at governing themselves

Cold soups are popular in Kronova during the summer months. An example is *volkscha*, which is a soup made from raw vegetables such as cucumbers, radishes and onions, boiled potatoes, eggs, and cooked meat or fish. Judging by the pictures, I'd say its pretty delicious.
