They have a very huge and powerful military!

I am like the EIC

In 2009, Steve Murdoch, an American opportunistic miner found a place called Sengalia on the Niger-Chad border where there were more than 10 dozen Uranium, Gold and Petroleum mines.

He came back to the USA, and sold everything he had to buy a huge cache of arms. He then supported a local dictator warlord in that region. In return, he demanded that Sengalia be given to him to rule as a protectorate of the USA. The dictator agreed.

Sengalia area=650 sq km

Murdoch then established a mining conglomerate and started large scale mining activities there. The US government approved for his new nation in return for a fix tax.

Today the nation is like the wild west with miner camps, fast food hotels like McDonald's and plush company offices alongside poor native villages.

The fact that a little mining company soon became a monopoly, engulfed some piece of land, and became its own nation.

Minor superstitions are still prevalent amongst the Kronovan populace, many of them originating from what appears to be an ancient tradition of animism.

As one might expect of an austere culture like Kronova's, while an array of visual art styles exist, few are oriented along the lines of pop art; the two most predominant schools are fairly old-fashioned, oxymoronic in the second case of course.
