My first time listening to it. I liked his How I Live Now soundtrack so gave this one a try.

This ones nice and ominous-sounding.

12 songs, and only a 31 minute soundtrack, so should plow through it quickly.

Of course, Melt Banana's songs are even shorter...145 songs only totaled to like 4 hours.

One of the best on the soundtrack.

Think I liked the How I Live Now one more, though, overall.

Your nation is like a son. What it does right is your merit, as well as what it does wrong is your fault. When you praise it, be lucid and avoid exaggeration. Praising it too much can make it indolent. On the other hand, when you criticize it, be harsh, but do not ridicule it. Do your best to improve it, not through derision or disdain, but through good examples and dedication.

Think this is the first fully industrial metal band I've listened to.
Pretty awesome so far to be honest.

Can't remember the last time I listened to an album from the 80's, if ever.
