An alternate history version of China in which the alliance between the Kuomintang and the Communist Party never broke down, eventually resulting in a federalized, democratic China. Though one of the world's strongest economies and an emerging superpower, China continues to suffer from high rates of income inequality, an overreaching and sometimes corrupt government, and cultural issues that continue to persist despite the efforts of many reformers over the decades. Most factbooks are still an active WIP.

*If men were angels, no government would be necessary. If angels were to govern
men, neither external nor internal controls on government would be necessary. In
framing a government which is to be administered by men over men, the great
difficulty lies in this: you must first enable the government to control the
governed; and the next place, oblige it to control itself.*
