The Republic of Oswyn Islands • Unbedeutend, aber stolz

A small, modern **republic** in Oceania currently under the *Präsident der Republik* **Marius Keßler**. Having long been stagnant in its politics and uninteresting in general, the current president is aiming for global recognition for the country and all its greatness.

It feels very much past tech.

Sorry for the long wait, but my new nation is still a slow work in progress. Completely new map than this one has.

Things to keep in mind:

- This isn't a single nation, but a whole planet full of many nations. I will usually reference a certain nation when posting.
- The flag being used is just to represent that it is a planet, it is not used at all in the 'canon', as there is no one flag for the planet Instead I chose to just use an image of the planet.
- I've referenced the prequels 124 times on F7.
