Teienshi was on amicable terms with their British colonizers after the 19th Century and welcomed their liberation after being briefly occupied by Japan, even if the Japanese invasion and the immediate post-war scenario damaged Britain's prestige over the capacity to defend its' colonies.

Though The Tohorin Social Republic is not technically a socialist state it is still expected that the citizens are very loyal to the state. That means any foreign media that could be considered "propaganda" will be either censored or blocked entirely.

The stories of what laid the foundations of modern-day Free Antarctica begin in the 20th century, where use of fossil fuels started being widespread in the world. However, the effects of climate change and it's subsequent effects on the continent wouldn't begin until the mid 21st century, where numerous scientists across the world warned the nations of Earth about climate change and it's devastating consequences on the planet. Carbon-based forms of technology were obsolete by the end of the 21st century. However, it was too late. There were 650 ppm (Parts Per Million) of carbon dioxide in Earth's atmosphere, devastating the world and it's climate.

The Ministry of Social Affairs of Loulan is the Loulani ministry in charge of registering and validating any political parties within Loulan. In the Loulani elections, each party is registered with their acronym.

I'm rather surprised that the official language is English. I was expecting Tagalog or Mandarin to be official ones, especially Tagalog given the influence the Philippines seems to have based on my brief skim through. A capital of a state encompasses most of Asia located within Manila was rather interesting as well. Very nice.
