And before going to watch some Dexter (and possibly sleeping), my favourite Tristania song, [Midwintertears](#). I think this track invokes the very *essence* of the band, and if you (Olwe in particular, but anybody else interested in goth/symphonic metal) want to give them a listen, try this track. The silky soprano at around 4:05 is just golden in contrast to the heavy music on the rest of the track.

Kamelot, Nightwish, an so on.

I don't even listen to symphonic metal, but my sister does, so I get all the names. Kamelot is her favorite band.

Any album that changes a band's style slightly (or a fair amount) is controversial, because people can't respect a band, you know, evolving. I saw a lot of people complaining about This Will Destroy You getting out of their peaceful, pretty post-rock stuff and going more into dark drone music. And everyone's like "They should go back to their old stuff". No, they should do whatever the F they want.

Caspian-Quovis

Need to start getting into these guys, too.

Actually, that's not why the album was so controversial (they didn't

really change their sound that much until The Game, and that was a huge success on their part). Basically it was the the single Fat Bottomed Girls/Bicycle Race off of the album along with Queen staging a nude, female bicycle race for the fun of it (and the hype I suppose) and putting a picture from this race on one of the covers of all non-American copies of the album. Oh Freddie you.

Yup it's Jazz.

And maybe Mustapha was controversial too.

The Muppets- Bohemian Rhapsody

Awesome cover/parody. ☐
