Monkey 1667 took a vacation in Post-Coup America. He decided to go skiing in the country-spanning snow fields in the middle of June, and discovered his hair was falling out because the fallout in the snow. He then asked the locals for medicine. They proceed to help him, but as he's undergoing treatment, 20 Metal Gears are seen approaching on the horizon and launch guided missiles full of napalm at the camp. Monkey 1667 and the locals evacuate before an army of 347 SSA guided missile artillery trucks succeed in taking out a single metal gear, accidentally blowing up Monkey 1667 in the process.

Realistic? Heck no! Outlandish? Heck yes!
