Spear Of Destiny - Warleigh Road

I mean, we can actually create a mathematical definition for evolution in terms of the evolutionary algorithm and then write code to deal with abstract instances of evolution, which basically equates to mathematical proof that evolution works. All that remains is to show that biological systems replicate in such a way as to satisfy the minimal criteria required for evolution to apply to them, something which has already been adequately shown time and again. At this point, we've pretty much proven that not only can evolution happen, it pretty much must happen since it's basically impossible to prevent it from happening.

Great album. Got that one for Christmas (Asked for it from my Grandma). That particular song is a favorite of mine, not just from that album, but all time. Lyrics work well for an RP character of mine, too.

The Chemical Brothers-Bahnhof Rumble (Hanna Soundtrack)

I want to watch this movie again...That's rare from an action movie.
