Monkey 2088 decided he could solo 20 Panzerkampfwagen VI Ausf. A Tiger I tanks.

He could not. They were 20 of the second most feared Axis tank of the second world war. He was small and crunchy and good with ketchup. Until he was smaller and chunky and good with chips.

Sherechian Maoist Party headquarters.

Monkey 2085 went back in time and save Monkey 10000, but in doing so created a alternate timeline where it was Monkey 10000, which resulted in a paradox as then Monkey 2085 would never have been able to save Monkey 10000 and become Monkey 10000. This resulted in it being removed from the universe by mysterious forces.
