evil interstellar empire, i presume?

A civilization with an over 3,000 year history of lizard people killing each other and enslaving everyone else. Now they've finally calmed down and formed a modern westernized constitutional monarchy. (long live Emperor Yoshio!)

The only way their ego could be any larger is if they built monuments to it and placed giant, neon signs on said monument. That's my interpretation, anyways. Take it with a grain of salt.

NS Stats shamelessly not used.

I'm sure it's only a matter of time before the neon signs get installed. And knowing YL, he'll probably make the people of the nearest city pay the power bill for that.
