Not a crime. EVERYBODY is a public servant.

Letting off fireworks while in the audience at a political speech, just to cause a panic.

Godulan Puppet #2, RPing as technologically advanced tribal society founded by mongols and vikings (and later with multiple other Asian and Native American cultures) motivated by an intrinsic devotion to the spirit of competition. They'll walk softly, talk softly, and make soothing noises as they stab you in the back and take your stuff... unless you're another Caleshan, whereupon they'll only stab you in the back *figuratively!*

Used NS stats: Population. That's it. Anything else not stated in the factbooks is not used.

Up to life imprisonment with no chance of parole for treason, and blacklisted from running for political office for those with "lighter" sentences.

Couple of months to a decade in prison for lying under oath, depending on the charges and whether it was part of a greater conspiracy.

Private enterprise doesn't even exist. If a government merchant does that, a seizure of all profits made in the last three months and a one-month jail sentence.

Goes from state to state, however multiple Federal laws were passed that at least banned or restricted the selling of weak and unusable products. Federally the least a Galactic state could do is give them the fine, however some states with brutal and oppressive laws will usually have a punishment of jail time 3-5 Sol years

Seizure of all profits made by this illegal business along with a three month sentence per confirmed kill for murder. For the ones hiring you, an instant defrauding of their accounts and a one month sentence per confirmed kill for indirect murder.

Suicide is a sin so you would be denied consecrated ground for your final resting place and those closest to you in life would be under increased scrutiny by the government and likely feel some ostracization socially.
