The Great Imperium of Man is a Warhammer 40k themed nation based on the human faction of the game. Though we're inspired by the Imperium of Man from the lore, I've taken certain liberties to make my nation unique from other 40k nations.

Please refer to our factbooks for NS-Stats, we don't use the official ones.

They're currently in a state of war with the state of Hyundai-Kia, and that war has led to roughly 22,000 casualties, though that number increases by the day.

Kaiser Heinrich wasn't originally supposed to succeed to the throne, and actually spent a large amount of time in the navy. That was until 1907 when he was made crown prince after his brother Wilhelm abdicated from being crown prince. (Can crown princes actually do that)

The black and white on the flag of the PAS represent the State's (alleged) transparency with it's people. The colour palette itself is an intentional departure from the red, white, and blue so common in western republics, which are considered farcical bourgeois states.

For some reason, they're known as the United States of America. I suppose that's just a result of the Articles of the Confederation, even though the result was in no way as republican as it was in real life.

Typical of American hubris, nothing is mentioned of *La Revolucion Filipina* in their history. As the founders of the first native democracy in Asia, I presume we Filipinos are being persecuted by the tyrannical West under a less secretive light.

Which means... It's RADICAL DEMOCRACY TIME.
