Since those people have anime girls and whatnot on their flags, I decide to use him in my flag, and also, this is not Henry on my flag, it's Rupert Konrad. Plus, I love turbo-folk songs!

Nope. Put a fork in it. We're done.

This thread has required far too much moderator attention. It's nothing but a flaming opportunity.

Do not restart this or anything similar.

Yeah, I lost interest right when things just wouldn't stop with the spamming and etc.

At least this thread died a decent death. We finished a pretty cool story off. And we created an interesting F7-based world.

In one final act, the Gods must follow the wishes of the Megaversal Lords (NS Mods), and so Master Man, Uno Reverse Savior, Burrito Chimichanga, the Emus, Giselle, and the other Gods all gathered together on Earth, and cosmically absorbed the entire multiverse of No Rules RP.

They then spewed out the multiverse into a small orb. Giselle then went off to the Great Multiversal Library at the edges of the great expanse of the Megaverse's cosmos and silently placed the orb into a special room of the library.

"It will be remembered in history. In our hearts."

She shed a tear. But she flew off. There were still more stories to be told elsewhere.

Thus ends No Rules RP.

The mods said not to restart or anything similar like that, I guess this is just the end of one of the most unique threads in Forum 7

Also I might copy the posts before the spamming came so probably when I'm done copying, then this thread will either get locked or deleted
