I've met Italians with more presence than him, and don't get me even started about how the only thing he can bring himself to talk about is how he 'fought in battlefront'. Pfft, I'm pretty sure that him, like most of his kind, hid behind a rock while the rest of the platoon walked into a surefire death, and then he took all the credit. I don't care in the slightest about what this baka might even believe in, seeing as the country he governs on punishes dissent with crucifixion, I can already think even more lowly of this jackass"

In any case, Ms Akira, I think you should resign yourself to becoming the host of a reality TV show rather than being in a position that requires a calm, compromising and levelheaded mind. I’m sure those words wouldn’t even exist If you made your own version of a dictionary. Don’t get me started on your xenophobic tendencies. No, it is not the Confederate States of America. No, it's not the South either. SU stands for 'States and Unions'. The right acronym is RCAS. Please read the Factbook.

While these personal flaws would not n themselves be damning, the fact that he has worked to optimise the conditions that allow the corporations to exploit the working class certainly is. "Hmm. Well, color me impressed. I've walked these blasted wastes for God knows how long now, and yet this is the first I've heard of someone getting hit by radiation quite like that. He's no ghoul, nor is he a mutant in the sense that I'm used to. He's just... rather big. Curious. But what intrigues me more is how he seems to have lived through the apocalypse while retaining his cheery, benevolent persona. To have rebuilt, brought renewed life to the wastes... why, it almost sounds like a fever dream. But I suppose we are alike in our motivations - sadly, some of us aren't afforded the luxury of such circumstance. And so we must trudge through these irradiated sands evermore... ah, but you're not here to hear an old man's laments. My thoughts on this Valentijn are positive. I'd like to have a chat with him someday, provided he actually notices one as comparatively tiny as I."

So too do I find this "Maximilain" to be one who puts his eggs in far too few baskets. Who talks of rule by merit, yet looks at all such metrics through eyes that might as well be closed. Oh, and a few tactical victories against an opponent you effortlessly outgun regardless paint a poor portrait of one's battlefield prowess - perhaps he shouldn't rely solely on them to spread the legend he so desperately strives towards building."

I was mostly referring to [this](#) factbook, which I seem to recall you quoting several times in the past when describing the martial prowess of your leader. As far as decisive battles go, it's hardly the most even. I'd also suggest taking this to TGs if you want to reply - no sense in cluttering up an already cluttered thread.

"Such a outdated information system, peice of scrap. Well now, the Reverend is surely an interesting individual, well I'm more interested in his lands I wonder what they hold.

But going back to the individual I hear feats of his power, and furthermore morals that I question for the motives of good or evil, or perhaps for the survival.

With every big of information I find I only grow more curious, with every find only leaves a question. A figure shrouded in mystery, only making me question if I should even be interacting with them.

"Great, another corporate puppet masquerading as a politician. I wonder how much they pay him to whore out his own people... Suffice to say, I rather dislike President Wells. Also, democracy is not an ideology but a political system, and is not mutually exclusive with communism or fascism, or even fascsm, although that tends to be rare. Indeed, Qachuynia is both democratic and socialist. On a final note, I find that very first line in his biography to be a suspiciously specific piece of denial. Why would you even draw attention to such an idea?"
