It is 1938, 20 years after the **Great War** and the German humiliation, and democracy has persisted in **Germany** in spite of attempts to subvert it from the secret societies of the far-right **Thule Society** and the reds of the **KPD**. However, **Berlin** becomes a battleground of poverty, debauchery, and political extremism as various paramilitary forces fight against each other in the streets. Yet the development of a secret arcane martial art known as the **Seelenfluss** and the weaponization of esoteric lethal fencing techniques may change the tip of German politics forever...

Ok, this is epic.

The Athenian Sea League is set in a low fantasy world where all the legends and myths from greek mythology are true. And in it's current form the Sea League is a collection of city-states, oligarchies and petty kingdoms led by a triumvirate of it's three most prominent member states: mighty Athens led and represented by it's Archon Eponymos Pericles, "Father of democracy", brave Macedon led by Perdiccas III "the Wise" and represented by a court official by the name Pausanias and fearless Crete which in itself is a union of Cretes two most powerful nations, Pefki and Messara which each having to share one representative, said representative being Podarkes.
