Some modern Nordic country

The Federation of Greater Rostoria is a Medium sized nation with a powerful military, strong economy, and big influence all over the world. NS stats are not canon. The nation has a lot of Germanic influence but also some Slavic and Prussian ones. The nation is overly patriotic and has a big industry in oil, gas, automobiles, and military equipment.

The idea of a United Slavic country, referred to as "Slavia."

A little capitalist man stands on the plains, in the wind. You ask, "Who are you?" He speaks, "Why must you know? I came here, waiting for you." You ask "Why, then?" He says, "To contact you about your car's extended warranty." You start running, but he yells out "You can't escape your extended warranty!"

Green.

Your local up and coming technological menace.

According to [viewtopic.php?f=23&t=363018](#) somewhere around 5-7, because civilian tech is hyper-advanced, military, not so much. About 4.8 if we include project Hercules, which created superhumans.

No lore to be found other than each observer's headcanon.
If it helps, all ns stats are canon.
May or may not be an alt.
