Mastodon - March of the Fire Ants

I see Mastodon being suggested all the time to listen to, and see people listening to them all the time. I think I heard one Mastodon song and thought they weren't bad, but I don't remember. My dad was listening to one of their songs or something, checking it out himself.

Nothing at the moment ( ), so I need to turn something on just to say I'm listening to something.

I love Mastodon, but I'm not sure if they're your thing.

Eh, I'll give them a try anyway. Can't know if I like something or not until I hear it.

I should do the same with Dir En Grey, since I keep seeing you listening to them.

I'm certain you won't like Remission or Leviathan, Crack the Skye might be more your cup of tea though.

Night Goat, Melvins.

we, unlike the bourgeoisie, have nothing to lose and therefore our expression will be the only honest one, our words will be the only challenging ones and our art will be the one revolutionary expression. We need new noise and new voices and new canvases to become something more than the last poets of a useless generation.

Dir En Grey have a very large range with their music, going from soft music to very heavy music, so you'll have to listen to quite a bit of their library to decide what you like. You'll have to do the same for Mastodon, too. Oh, I see Oterro already made suggestions for Mastodon above me. That's pretty much I would've said. ☐

EDIT: Dir En Grey - Red Soil

I could certainly make recommendations for you, if you want.

I'll look into that, thanks. I need more playlists on Spotify and all, y'know? I only have like, 200.

Go ahead and give me some recommendations. I'll go through like, the one's most suggested for me first.

I might need to check out Om and Baroness too, to get my opinion on them.

Mindless Self Indulgence-Never Wanted To Dance.

I'd say these guys are kind of my 'guilty pleasure' artist that I can rarely listen to. It took me a while to get used to them when a friend introduced me to them, and I can still only listen to them here and there. It doesn't help I'm not a huge fan of explicit music...and this is definitely explicit. Not that I'm bothered by it, either. And they do make some good points in their music from what I can tell, as well.
