By the turn around of Universal Century, the Earth has become inhospitable for life to grow. This led many to leave the Earth for the space colonies while the Earth Federation elite live conformably in their gated communities. The Earth's exploitation of the colonies has sparked a devastating war between the Federation and the Zeon in 0079.

"Oversimplified" Labelled as Terrorist by UN.

Funni UN bashing, but anyways unlikely since he is an American. The only reason why the UN is even somewhat relevant these days is due to US backing, after all.

Alternate universe and still democratic, name a more funni combo. But, seriously this is somehow worse than Vichy or Commie France.
