That's actually pretty good... really digging it. Thanks for the link.

Is there a specific place that you go to dig up this obscure stuff? Because you seem to know a lot of really good music that I would've never heard of if not for you.

As for what I'm listening to right now... whatever the song on Heretic E4M3 is called.

Yeah, last.fm's awesome. If you have iTunes, you can load up all your plays and it'll give you suggested artists.

That's how I've found a lot of my favourite artists.

I have got a lot of my artists from discussions with the great music community on this forum, and like others mentioned, Last.fm is good for suggestions as well. Then some I just found from my own personal exploration. Good music is surprisingly easy to find in this day of the Internet, despite what people seem to think.

It seems to do the same with Spotify, too, because I only get plays from Spotify and I have a shit ton of recommended artists now.

Glenn Gould playing Bach's *Prelude & Fugue No. 3 In C-Sharp Major, BWV 848: Fugue* from *The Well-Tempered Clavier*.

I'm mostly here for... something to do, I suppose.
