["Sleeping Sun" - MoonSun](#)

Luveria...what genre would this be considered? I love this kind of music.

I'm not sure. I can't find any information about that band other than a few German sites. It's a cover of Nightwish's symphonic power metal, but it seems like MoonSun did it in something resembling acoustic symphonic.

For comparison, here's the Nightwish version. I much prefer MoonSun's.

I'll search around for others like MoonSun's.

Actually, what I meant to say was what genre is Nightwish. Damn cold has got me typing weird. ☐

I found Nightwish a couple a years ago, and I love their music. I think the first song I heard from them was "Dead Boy's Poem"...absolutely loved it.

I listened to the Nightwish version already. I liked their version a little bit better because the song seemed more complete, whereas the MoonSun version did seem like it was acoustic.

I don't know if you've tried Tarja from Nightwish's band, but hers is great too. Tarja's is Symphonic Metal/Rock.

Dave Matthews Band-The Last Stop

This albums supposed to be back when Dave Matthews Band was actually more into trying to be interesting than they are now. Seems like it. I know this song and a few others and actually enjoy them, so that's a plus side compared to other Dave Matthews stuff.
