fucking NS keeps logging me out and i lost my draft

Fact I recognized them off the bat without explicitly knowing it was them has to mean something right (not the 'hah you're predictable!' sense, but rather like 'oh I know this person I think \*brain combine brain cell make thought\* oh is definitely them i think much', like how i could tell a Buhers nation from several kilometers away), and they pop up in F7 quite often, so they're pretty well known here

First time I've ever seen them, they're pretty new, and not in any region they could be recognized from (And I mean, Pacifica is one of the 5 feeders, but if you're from them and not above 500m population, you're not gonna be recognizable from the other spawns, sorry.) Unknown.

Surprisingly someone I still remember from a while back despite them not being frequent posters, I would say they're recognizable, but not someone who posts often enough to be remembered by majority of the nations on F7 these past few months.

Fairly well known.
