In think it speaks for itself

La Ferra Suprema Reigns Supreme over the vast lands of Stella Nera

A land where humanity is king, above god and devil alike. A blissful Utopia for Humanity, a horrible Dystopia for sentient robots.

Robots shouldn't have rights or citizenship;

Compromise on other non-human sapient entities is possible, with limitations, but not on these buckets of bolts. They should serve humanity and have absolutely no place in society other than as our servants. Think of the benefits of this. Plus, they would almost certainly overtake humanity if we gave them the chance, whether out of pure advanced abilities or malice, or worse, both. Think of humanity.

Now the moderation team really IS Godmoding.

Wondering why you got warned/banned? Just go to the One-Stop Rules Shop, hit ctrl+f, type in whatever you were warned/banned for, and hopefully you'll know a bit more about it so YOU DON'T DO IT AGAIN.

Really good advice for any user.

I'm 15, someone finally was correct.

Wow...  
Well...preserved. Though let me tell you something: If you live outside of the US, you can't make a Gimkit account if you're under 16 (compared to under 13 in the US). Yes, I know, it's strange.
