Everything in "The Connection" - Papa Roach

"Concentration of power in a political machine is bad; and an Established Church is only a political machine; it was invented for that; it is nursed, cradled, preserved for that; it is an enemy to human liberty, and does no good which it could not better do in a split-up and scattered condition." - Mark Twain

I mean, we can actually create a mathematical definition for evolution in terms of the evolutionary algorithm and then write code to deal with abstract instances of evolution, which basically equates to mathematical proof that evolution works. All that remains is to show that biological systems replicate in such a way as to satisfy the minimal criteria required for evolution to apply to them, something which has already been adequately shown time and again. At this point, we've pretty much proven that not only can evolution happen, it pretty much must happen since it's basically impossible to prevent it from happening.
