None. At most, some kind of loose collective of local representatives with little real power over the nation itself.

[illegible]

Dictator-backed dedication to absolute civil freedoms, ultrabureaucratic pseudo-socialism and heavily-armed neutrality. Fueled by PMT*/FanT nanopunk schizotech, eldritch red tape and snazzv neo-cold war aesthetics on a broken continent.

Totalitarian Big Brother-style communism, possibly NazBol.

My nation - which is pretty much just a unified Korea with some extra territory - represents my real views, as does pretty much anything I say on the forums. NS stats only broadly representative. Feel free to call me Q&K, Quartia, or any other nickname.

What is that you ask? Well its a mixture of federal and republic government but they do everything in an anime way. Just signing a legislative paper has been known to cause black outs.

[VlaRiSsia](#)'s oldest puppet who was revived out of boredom. NS stats were accused of heresy and burned at the stake.

The Tilminese Federation is a totalitarian fascist theocracy ruled with an iron fist by [The Overseers](#), a fanatical organization of theocratic fundamentalists seeking

to eradicate 'modern degeneracy'. Has scenic architecture, no light pollution, quiet streets and public executions for the smallest crimes. On and one in every four Timinese has died from starvation, disease, execution, forced labor, and genocide ever since the Overseers have taken power but that's not too important.
