Negligent Collateral Collapse - *Black Hole Monster In A Spin Releases Energy*

CVT Temp wrote:
I mean, we can actually create a mathematical definition for evolution in terms of the evolutionary algorithm and then write code to deal with abstract instances of evolution, which basically equates to mathematical proof that evolution works. All that remains is to show that biological systems replicate in such a way as to satisfy the minimal criteria required for evolution to apply to them, something which has already been adequately shown time and again. At this point, we've pretty much proven that not only can evolution happen, it pretty much must happen since it's basically impossible to prevent it from happening.

[Sigur Ros-Kveikur](#)

Whoa, this songs even better recorded and I quite liked it live.
Sounds darker.

Sonne Adam - *The Deceiver Of The Desolations*

If it wasn't for me and Sonne Adam's album *Messengers Of Desolate Ways*, bleak and foreboding doom death from Israel that sounds somewhat like a perfected version of *Lost Paradise* and *Gothic* era Paradise Lost, we would probably only see a list of tracks played by Corrian.

Probably. But there are times I avoid posting a bunch of songs because nobody else is doing anything. Like late at night. I've avoided just completely making it only me posting a few times because of that.

[Radiohead-Videotape](#)

Another favorite. Loved this song when I was about 13 or 14. Was probably one of my favorite songs ever back then, until I evolved my music even more. This was before I even found Sigur Ros, too.

Dark ambient music.
Don't know who's playing it.
