Ophthalmia - *Intro; Under Ophthalmian Skies/To The Benighted*

CVT Temp wrote:
I mean, we can actually create a mathematical definition for evolution in terms of the evolutionary algorithm and then write code to deal with abstract instances of evolution, which basically equates to mathematical proof that evolution works. All that remains is to show that biological systems replicate in such a way as to satisfy the minimal criteria required for evolution to apply to them, something which has already been adequately shown time and again. At this point, we've pretty much proven that not only can evolution happen, it pretty much must happen since it's basically impossible to prevent it from happening.

[R.E.M. - Bang and Blame.](#)

This song actually kind of reminds me of Stone Temple Pilots, somehow. It might be the tempo of it, and the chorus riff.

I am a registered Independent, an enthusiast of Political and Economic history and an American Citizen.

[Miley Cyrus - Wrecking Ball \(Death Metal Version\)](#)

The lyrics fit so perfectly for metal, but this cover sounds closer to black metal than death metal, like Dimmu Borgir.

Every Sufjan Stevens release ever, in chronological order.

The American Legion is a neo-fascist terrorist organization, bent on implementing Paulinist Sharia, and with a history of pogroms against organized labor and peace activists and of lynching those who dare resist or defend themselves against its aggression.

Pro: O'Reilly technical books, crew-length socks, Slide-O-Mix trombone lubricant, Reuben sandwiches
Anti: The eight-line signature limit, lift kits, cancelling *Better Off Ted*, Chicago Cubs
