### Ensiferum - "Passion, Proof, Power"

17 minute track from the album "Unsung Heroes" (2012)

I never listened to this album until today, but I now fully understand the bad rap that it gets. I must admit that there were some really great parts here and there, but they are greatly overshadowed by the rest of the shit.

I still don't understand how my friend thinks this is a good album... must be the fact that he hasn't listened to their older albums.

The Vengeful One by Disturbed. They've just come back from a four year hiatus and they released this single a few days ago. I'm interested to see how the rest of their new album is going to sound.
