Their governmental leanings are best summed up as a sort of theocratic, somehow further-radicalized Nazbol. They arose from the ranks of the Mossad in the process of an armed coup, which served to supplant and subsume the IDF - allowing it to continue its existence, now as the military arm of the newly-formed Zionist Occupational Government.

Yeglan Submarines can essentially work as replacements for any other water vessels, should the need arise. To add on this, since Yegla Islands is, well, an island country, most of the strength of their Armed Forces are concentrated in their Navy.

Climate change and nuclear war caused humanity to almost go extinct, but a message was made in preparation for the next sapient species to inhabit the planet. The "Golden Message" advises to take care of the planet and be peaceful. The remaining humans now either live on a spaceship (part of the EXO program) and on Mars, cooperating with the Inklings, or as part of the Dominion of Mankind, a tiny, isolationist, and repressive state in what used to be Germany.

The green onion on the Hatsunian flag was waved in rhythm to music, and was associated with "the first sounds of the day" in ancient rituals.

The nation has fine fish, and there are many pirates along the coast who presumably attack the fisherman, and thanks to the strong Balticonian Navy, soon end up sleeping with said fish.
