You have to work to pay off the cost of the prison. You also get a bunch of felony charges that have more imprisonment, fines, and forced labor. Your case gets assigned to the type of guy who loves designing inescapable prison situations. You play a game of cat and mouse with him for the rest of your days.

Climbing in yo windows and snatching your people up, tryin' to rape 'em.

No punishment - controlled flight into terrain invariably results in a dead flight crew, and punishing a corpse is a waste of public funds.

Most likely a fine - the value would depend on how much property damage was caused. There may potentially be prison time (again, which would entirely depend on how much damage was caused), or being sent to a psychiatric hospital.

Defamation.

The Republic of Atrovania is not a WA member state. [There is more detail in Atrovania's Information & Disclaimers page on this topic, and other areas.](#)

In terms of technology, most Atrovanian technology is modern technology (MT), often enhanced with elements of Post-Modern Technology (PMT). Atrovania has the knowledge to use PMT to enhance MT, but lacks the capabilities to built and maintain things which are entirely PMT for the next (likely) several decades, at a minimum.
