What a *shame* it would be if these rich people were to suffer the same fate as these leaders of the DPRK.....

The **People's Republic of Hussija** stands as a united **Hussite socialist** country in Central America.

NS Stats and Policies have been drained for their Thaumaturgic Energy, and thus only factbooks are canon for this nation.

Seriously, I put a lot of work into them, don't let that be for nothing

In a nutshell: A flawed but ultimately well-intentioned libertarian socialist federation set in a fantastical sorta-post-apocalyptic world inspired by [New Weird](#) and [Cassette Futurism](#), on a rugged and only partially tamed continent of scattered ancient ruins, bustling fortress-cities, beautiful but alien wilderness, and above all, boundless hope and opportunity for those willing to fight for it.
