Monkey 2012, thinking the world was about to end due to some ancient rock calendar not going past the current year, decided to go out on his own terms. Said terms included a bowl of chili with a gun in it.

Jebslund is a nation of kerbals ruled by Emperor Jebediah Kerman. We reject tyranny, believing that rights should be protected, though we also believe said rights end where the rights of others begin. Shockingly, we *do* use NS stats, with the exception of lifespan.

Monkey 1995 decided to become a full prosthetic monkey cyborg. Trouble is, his software was all based on Windows 95, and the resulting software limitations made it impossible for him to move. Even more unfortunately, a gas leak at the hospital resulted in an explosion that left only enough of Monkey 1995 to fill a matchbox.
