It appears that after the Socialist interregnum, the Halloway monarchs eschewed the older more decorated Seals in favor an older seal created by Felieu of Cantelo (1328-1353)

Their nation was, for a brief period, a Republic as the result of a Communist Revolution. This was the only time a Halloway did not rule the nation. I like that little factoid.

In their universe France is a kingdom, and at the same time Israel exists. The french flag has the revolutionary colors, and the bourbon coat of arms, but that is easy to understand due to the fact that they are a constitutional monarchy. The part that is a little bit harder to understand is why Aragon is still a country, and why a country with such history is a constitutional monarchy; also, where is Castille? And their inquisition? Kenia is jewish by the way. Also China is still a good country not ruined by communism.

Their nation arose from a collaborative revolution between First Nations and English settlers. That's actually a cool back story.

The Democratic Socialist Republic of Karevka (DSRK) is supposed to be a stand-in Soviet Union, although with major differences like the allowance of private business (But the state is a partial owner) or the fact that they allow LGBT marriage. Kind of alternate history or alternate universe I guess.

For some reason, their version of Israel is 'Judeo-Christian', which honestly makes them closer to a less antisemitic Empire of the Outremer than anything resembling a Jewish Nation.

The Savoyard branch didn't lead the monarchists during the second Civil War and had fucked off fled back to Italy. The main Halloway dynasty had diminished in importance and retained some moderate/minor noble titles until then.
