All previous men are revealed to be still alive, they just faked their deaths, and they have a huge party all day long, including the sentient pillows, and other sentient objects.

The Mazda MUIT falls off a cliff, which leads to the second thread. We need something SPECIAL for the final Man, not just some sentient car.
New Man. He is very strong, but peaceful. He looks upon all the previous men and realizes the true Man thread was the men we made along the way.

Man makes a limousine that contains a V-10 engine and seats for all the other man and sentient objects to sit and relax. He colors it in every color and puts all the accessories that the men would like. He felt really special, and invited every man to join in, even the sentient objects.

Man gets comforted by everyone in this thread, and realizes that he should be grateful of everything. Everyone says their last goodbyes, like him, the Toyota AE86 (yes, he is a legend), HE, SHE, the Ferrari 360 Modena's, the building,

the elevator, Bill Cosby, the original Man, the Countryballs fan, the sentient pillows, the sundae (which give rise to the sentient object revolution), every user in NS, so on, and so forth. Everyone gets in, and the limo drives away to the sunset, with a music box tune playing in the background. Is this how it... ends?

Actually, it's not really the end, as Man's limo gets into a lot of troubles. (Let the men survive, guys! Don't kill them!)

He then jumps out of the limo along with the other man, and one of them offers his big car. They drive off into the sunset, as the second thread becomes visible and we all have the feeling of the last few posts. (Continue the thread! Let's extend the end like this is an essay. 500 page essay.)

The car's engine then goes in flames, and just in time, another one of them summons the biggest bus that has space for everyone. We all know that a thread must have 25 posts to go on one page, and so, they go touring to different locations in the Maniverse, first stop: London. Look at the damage the clock on Big Ben has inflicted!

NO! YOU MADE THEM DIE! F7 can't do something together, huh? This could have been a great ending but you had to ruin it. /skipme

One of the sentient pillows fell into the canyon, while all other visitors watched in horror. But after a few seconds, they saw that even though it was an accident, the pillow survived! Everyone cheered for their survival and continued with their fun at Grand Canyon.

I guess they're still alive? Good. They then went to Istanbul, where they ate kebab, chilled with some islams and drank turkish coffee, but an angry turk was out of his mind and attacked! Luckily Man Jr Jr knocked him to his mind with his experience of kicking bugattis.
