I *think* there was a king called Knut who was the son of some guy called Sweyn of Denmark, and following a peasant revolt in England, said Knut divided the lands of Denmark and Norway. I find it really interesting that the AN abolished its monarchy through a popular referendum. I guess the Utopian Socialists weren't so wrong after all.

Upon retiring from his trade as a mercenary, the TF2 Doctor took his skills in medicine and warfare and established a new state, implementing both of these skills. The result was Ximea.

Ximea considers Wiccans as being "spiritual but not religious" for the purpose of documentation, demographics, and bookkeeping.

Telugu Nadu counts the IT industry among one of its main sources of income. To me, this indicates it's a major importer of other nations' industries, and benefits from globalism, as India does in the real world, given that was what drew so much of the world's IT and support business to it in the early 2000s. I wonder what its relations with other Indian states are like, with that in mind?

Technically he didn't, he wrote a paragraph in the "Impression of AL" thread, in which he mentioned that Ari had a knife named *Ashbreather*, and I liked it enough to make the knife at least canon.
