buddy what

U.S.S. UNITED STATES (CVA-58)
"GONE, BUT NOT FORGOTTEN"

□ □ □ □ □

Intended as the first of a new class of "supercarriers" for the United States Navy under the administration of President Harry S. Truman. Her design was notorious for lacking an island superstructure and its unconventional deck layout, which would not be seen in the succeeding Forrestal-class.

In 1949, only five days after United States' keel was laid down, she was cancelled by Secretary of Defense Louis A. Johnson as part of a campaign to cut down the naval budget and advance the development of airborne nuclear deterrence via long-range bombers.

"SEMPER PRIMUS"

Intended as the 712th destroyer of the United States Navy as a member of the Gearing-class and eventually refitted into the first guided missile destroyer of any navy in the world.

In her DDG configuration, she carried 4 Mark 12 5"/38-caliber artillery guns in 2 dual-purpose Mark 38 mounts forward (AB configuration with the B turret superfiring over the A turret), as well as twin RIM-2 Terrier surface-to-air missile launchers aft where the Y turret once was.
