Ah shit. I'm going to be steamrolled by neoliberal feminists now.

The animals make it seem almost too non-evil to not actually be evil. I'm on to you.

Maybe the animals are there to make us seem non-evil so that the conspiracy theorists will think that we're evil when we are in fact non-evil. It's quite the evil plan to promote our non-evil agenda of evil world domination of non-evil socialism.

Solid 0/10- unless we're going by the historical definition of mermaids who lure people to their lairs to eat them. Then it's a 9/10

Five out of ten. Seems to have a certain strength to them, but morality keeps them from unhinged terror.

*The Federation of Andronnia is a union of six former sovereign kingdoms coming together under ethnically and nationalist similarities. A liberal state which is a powerhouse in industrial, technological and scientific sectors. The state is headed by a Prime Minister as the government and the crown as the head of state.*

*"I've always been leery of the United Nations. The very concept is comically dichotomous. Nations putting their self-interests aside in the hopes of building a global community, holding hands and Kumbaya? I mean, honestly, it's like kindergarten. Do you have rug time? I did love rug time."*

Honestly, 8/10. Gives a vibe of a nation trying not hard at all to look peaceful while also committing war crimes every Tuesday.

Gifs as flags are an abomination to everything we here in Nationstates value as they seek to degrade our site's morality and values that guide the young and old nations through this fabulous thing we call life with the degenerate lifestyles of satanic gifism.

Partially inspired by the Third Odyssey mod for EU4, this nation is essentially a Byzantine successor state in South America that has fused together Ancient Greek Religion with Greek Orthodox Christianity. It mixes the aesthetic of Byzantium and Ancient Greece, with very open and liberal social values but with an Imperial Monarchy. NS stats are referenced but are not strictly followed to a T.
