Sabotage against critical infrastructure like internet access can lead you to 2 years (minimum) to 5 years of penal labour, depending on the severity and its circumstances.

Corporate/industrial malpractice?

Intellectual property? I assume this is commercialization and profiting off such material. This applies:

...Fine of a multiplier of profits made...

If it's piracy of the literal kind, that's a long-term prison sentence if you don't get killed while the authorities try to capture you. The Dyrrhonian Isles take trade disruptions very seriously.

You'll get your ass laughed at by Volksmilitia members in their brand-new T-15 Armata as they roll by you watching you attempt to ride an anteater with a saddle, that's the worse it'll get as long as you dont instigate a fight with them for doing so.

Ownership of an unregistered M24A3 SWS chambered in .338 Lapua Magnum with intent to be used against YL during an upcoming speech/rally from a bell tower 0.5km off from the event grounds. Also with further intent to incite a revolution.

Life in prison, if you don't die while being captured by the entirety of world's police force.

Cutting every wire in a government building that isn't related to power access (like computer mice and keyboard wires)

Not really a law against that, because, why would there be. Probably vandalism, reckless endangerment, trespassing, and operating a vehicle in public without a license, I guess. Probably 5-7 years and a large fine with possibility of parole and bail.

Space piracy, and I mean pirate pirates, none of this sissy internet stuff.

OSHP (onboard security heavy personell), or basically the gendarmeries of our ships wouldn't be too happy. Summary execution.

Owning a BTR-80, with a drivers and firearms liscence and FFL or legal document that allows one to own an automatic firearm because the KPV is a machinegun.

Depends on the type, Anal/Oral intercourse is fine, but bestiality is prison for 5 years, and cheating is 2 weeks of community service.

Death by the standing Cangue, basically, it's a box head poking out (pillory) the top hole with a platform you stand on which is slowly removed, thus very slowly they are strangled to death.

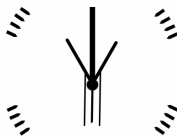

Burning a restaurent down after they discriminated against your identifying factors
