Praise to the Man

I am not a Mormon in real-life, however I do have a pretty good understanding of the religion and thought it would be fun to RP a Mormon Theocracy.

Just curious, and I don't mean anything bad by it. But do you listen to anything that's not mainstream pop rock or pop music? Or just stuff that's not mainstream?

I think my dad likes a decent amount of Megadeth, and I already got that song in my head because of the name alone.

Diorama - I Wait For You (Ionized Version)

**CVT Temp wrote:**

I mean, we can actually create a mathematical definition for evolution in terms of the evolutionary algorithm and then write code to deal with abstract instances of evolution, which basically equates to mathematical proof that evolution works. All that remains is to show that biological systems replicate in such a way as to satisfy the minimal criteria required for evolution to apply to them, something which has already been adequately shown time and again. At this point, we've pretty much proven that not only can evolution happen, it pretty much must happen since it's basically impossible to prevent it from happening.
